WATER CROP IS BEING HARVESTED NOW

President Beatty of C.P.R. Travels Through Southern Part of Province

LIKES IRRIGATION PLAN

Would Regret to See Land Go Back Solely to Ranching Purposes

(Special to The Bulletin) LETHBRIDGE, Sept. 13.—President Edward W. Beatty, C.P.R., who is now in the province, spent two hours in Lethbridge Tuesday afternoon arriving at 1:15 from Medicine Hat and leaving at 3:30 for Calgary.

President Beatty entered the area of irrigation development that is being developed in the south and evidenced keen appreciation of the project which is now under way in southern Alberta.

Speaking of irrigation development generally, President Beatty said it was the duty of the government to bring in comprehensive schemes for carrying out the water to every foot of available land in the semi-arid districts and to make it possible for the farmer to be allowed to drift back to use for ranching and to have the water to be used for irrigation.

He is a keen believer in the water project and he is sure that it will be a great benefit to the province.

DOMINION WEST REPORTS INDICATE THAT LIBERALS SHOULD SECURE A GOOD MAJORITY IN THIS ELECTION

Will Be No Dearth of Candidates—Many Aspirants to Choose from—Prince County, P.E.I., Anxious That Mackenzie King Should Run for Office There—Women's Organizations Represented

(Special to The Bulletin) OTTAWA, Sept. 13.—(Canadian Press)—Plans for the forthcoming election campaign were initiated by the National Liberal organization in the province of Ontario, where the party has a strong following. The delegates representing all the provinces made a careful survey of the state of the province and the opinion was expressed that the present opposition will have a substantial majority in the next parliament.

One of the features of the meeting was the request from a delegation from Prince County, P.E.I., that Mackenzie King, leader of the opposition, should run for office there.

The delegation gave the assurance that if Mr. King would do so, they would be very glad to support him.

Asked if he would consent to anticipate the judgment which will be handed down Wednesday by the board of railway commissioners on the freight question, President Beatty said that he did not care to make a statement.

He had received the railway commission's report and he was sure that it was a fair one.

Aburckle Must Stand For Trial On Manslaughter Charge Result Of Death of Picture Actress

Indictment by Grand Jury Was Returned at San Francisco Tuesday Night—Evidence Given by Witnesses Has Changed Since the First Hearing

(Special to The Bulletin) SAN FRANCISCO, Sept. 13.—An indictment charging Hester "Baby" Aburckle with manslaughter in connection with the death of Miss Virginia Hays, was voted late tonight by the San Francisco grand jury.

Among witnesses before the grand jury, some of whom have been called to the stand to give evidence in the case, were Mrs. Aburckle, her mother, and her sister.

The grand jury also heard the testimony of Mrs. Hays, who was the actress who died.

GOLD DREDGING STARTING SOON ON UPPER PEACE

Company Will Start Work on a Lease of Several Hundred Acres

The Peace River gold dredging company, having secured the lease of several hundred acres of the best placer grounds on the upper Peace river from the Morgan syndicate, is starting operations immediately.

The company has taken over the complete plant of the Dominion gold dredging company, which was the only one of its kind in the province.

The first hydraulic dredging plant is being installed on the river, and it is expected that it will be in operation by the end of the month.

The company has also secured a lease of several hundred acres of the best placer grounds on the upper Peace river from the Morgan syndicate.

MADE INSPECTION TRIP OF POSTS OF THE H.B. COMPANY

K. C. Sinclair, District Manager
Of Company, Is Back From
The North

K. C. Sinclair, district manager of the Hudson's Bay Company, returned to Edmonton via the last train from McMurray after an extensive trip of inspection of the company posts as far as Fort McMurray. There are in all thirty-five posts scattered between Edmonton and the Arctic, included in Mr. Sinclair's district.

Every summer the annual trip of inspection by district manager Sinclair is made to check up the trade at the various posts, which include those of the Peace River and Athabasca districts. All are at present operating and preparing for a good season's catch of fur this year.

Mr. Sinclair said that indications for the north this year point to an early winter. While at Fort Chipewyan on the way to McMurray passengers on board the boat saw large numbers of walrus in the vicinity, a distinctly northern bird which only migrates south as soon as in view of an early winter. Mr. Sinclair points out that on the same day last year he was in the Winnipeg district and that there was not a walrus to be seen from the north at that time.

Twice at Norman
During the past summer, the district manager of the Hudson's Bay Company has visited the district twice. The summer "Mackenzie River" trip was his first, and the "Athabasca" trip brought over thirty passengers. Thirty of more returned at night, including part of the surveying parties of engineers Whitaker, Kew and Williams. These men, who are from separate parties under the same command, will then flow from Smith towards Hamilton and other northern points for the fur season, before finally coming out.

Fort Smith is now a well-known place. Three hundred inhabitants, and the southern terminus of the Mackenzie River and Great Slave lake, several government offices have been established at Fort Smith during the past year, officers in charge being Major Burnham, mining recorder, and Major McDonald. Mr. O. S. Fisher's assistant, Thos. Jones, will stay the winter at Smith. Mr. Fisher is in charge, having come out a month ago to spend the winter with his family in the city.

Abandon Windy Point
Mr. Sinclair states that the Imperial Oil Company have abandoned their well at Windy Point after having penetrated over 1500 feet and not getting oil. He says that the oil companies of the company to discontinue their device and hence the oil equipment this fall but that they have not determined that amount until next spring, owing to a probable early freeze-up throughout the north.

Prospect for Fur
Prospect for fur is all through the north during the wintering winter, after Mr. Sinclair's return. He states that the Indians are in good shape, many having not yet been seen. The steady supply at the various posts. He expects any late of catches from the north and thinks that a promising story of the last summer as a huge haul.

ANOTHER ACCIDENT IS REPORTED ON WABAMUN TRAIL

A. H. Scholten of Duffield, Alta., a member of the Stony Plain section of the Edmonton Automobile and Good Roads association, called at the office of that association Monday and reported another accident on the Wabamun Trail, at the exact spot where, W. J. Carpenter, superintendent of schools and Wm. Parrish, of the customs department, had their last accident three weeks ago.

The car, a Ford, owned and driven by Mr. Parrish, a farmer of that section, struck the ditch head-on, and then turned around and over completely although the car was completely demolished, and will be of no further use. Mr. Parrish and the two men with him were fortunate in escaping serious harm, though badly bruised. At the spot where the ditch, all were thrown clear, otherwise, it is almost certain that lives would have been lost.

A large "danger" sign has been erected for this corner, and it is now the office of the local organization, ready to be put up and changed to be in place by the end of the week.

The association has also had the rough out at this corner at their own expense, and in addition, have asked the provincial authorities to have the road straightened, if possible, and make add for traffic. Until the is done, however, Mohr's corner will continue to be dangerous and extra caution should be used in making the three turns at this point.

THE CLARKS IN CRY
Mr. Michael Clark, M.P. of Ocala, is registered as a guest at the MacDonald Hotel. On Tuesday morning, Dr. Clark was driving in a car, accompanied with his many friends in the city.

University Agricultural Class Best That Has Been Known; 27 Students Already Registered in First Year

The faculty of agriculture of the University of Alberta starts the new year's work with better prospects than ever. Already there are some 27 students registered for the freshmen's course; when in other years the number by this time would have been more than a half dozen. Dean Howes expects there will be 30 or more in the first-year class, 10 to 15 in the second-year class, and nine in the graduating class.

The students qualified to enter on this class are limited to the graduates of the agricultural schools, where they have already put in two years, so that these are really the third, fourth and fifth years that are put in at the University. The freshmen do not start until November 1, but the second and third year students start work on October 1, along with the other faculties.

A new professor will be added to the staff this year—Professor John Dowling, M.A., of Wisconsin, who will assist Professor Dowling in the animal husbandry department and will eventually be in charge of the dairy husbandry branch of the faculty. Professor Dowling was formerly of Hamilton, Ontario, and is familiar with Canadian problems.

Improved Equipment. The equipment for the year is going to be considerably better this year than ever before. At present, a new horse barn 115 by 45 feet is being erected. The basement is now being put in and it is expected to finish the work this fall. There is also a splendid sheep house being erected in the form of an L, and provides shelter for a great number of sheep and paddocks where the different breeds may be kept separate. There will be a veterinary hospital, feed racks, grain hoppers and modern conveniences for handling.

A new hog pen is also being completed and the principal feature is the system of heating that will take the cold off the pigs at farrowing time. This will prevent a great deal of loss among the young pigs during the cold spring. There has been every precaution taken to provide good light and ventilation.

Value of Experiments. Quite a part from the pedagogical part of the work, the faculty of agriculture finds in the practical work in the country from the experiments, both in livestock and in the plant section, as been done and reports made that are of inestimable benefit to the province of Alberta. These have been practical experiments such as the development of a clover that does not winter kill in this province, definite reports on the culture of alfalfa, on different sorts of manure and, by the way, after filling the two silos already there, the farm had over a hundred tons of feed left and a new silo of cement staves is being erected this fall.

Store Feeding Ones. One of the latest experiments has been the feeding of stores for the market. Several types of experiments have been carried out. Some stores, just the form of the stock yards were bought last year and tried out on different combinations of feed and enzymes. Also with the co-operation of the breeders, purebred steers were fitted at the University for show purposes at Chicago and other big eastern fairs.

This year, this experiment will be carried out on a larger scale.

RAILWAYS HAVE CUT RATES ON 1,450 ARTICLES

Move Has Been Voluntary on the Part of Canadian Common Carriers

MONTREAL, Sept. 13.—According to a statement compiled by the Canadian Railway Association, more than 1,450 rates have been voluntarily cut and about the Canadian common carriers to meet varying trade conditions. The reduction in the blanket reduction of five per cent on all rates in effect since January 1, 1921, an average reduction of about 40 per cent.

Outstanding examples are: On lumber, from British Columbia to the United States, a reduction of 10 per cent; on grain, from the Pacific coast to the United States, a reduction of 10 per cent; on coal, from the Pacific coast to the United States, a reduction of 10 per cent.

On the other hand, the rates on certain commodities have been increased. On live stock, from the Pacific coast to the United States, a reduction of about 25 per cent; on grain, from the Pacific coast to the United States, a reduction of about 25 per cent; on coal, from the Pacific coast to the United States, a reduction of about 25 per cent.

Trans-continental rates on forty-eight different staple commodities have been reduced from six per cent to 10 per cent. On the other hand, the rates on certain commodities have been increased. On live stock, from the Pacific coast to the United States, a reduction of about 25 per cent; on grain, from the Pacific coast to the United States, a reduction of about 25 per cent; on coal, from the Pacific coast to the United States, a reduction of about 25 per cent.

Music Firm to Open Spacious New Store

Mason & Risch, First Canadian Piano Makers, in New Home Tomorrow

This Company has been established in business in Edmonton for the last twenty years, during which time it has already had three different homes. The Mason & Risch Company will on Thursday open its new and commodious premises at 10162 101st street. Each move has been necessitated by the expansion of the Company's business. For over fifty years the name of the firm has been synonymous with elegant workmanship, beauty of design and quality of tone of the instruments manufactured, and the passing of the years has but added to the laurels gained in the early days. It is a feature significant to those in the trade perhaps more than to the ordinary layman, that the founder and first president of the Company, T. G. Mason, now in his 84th year, is still actively engaged in the business. The significance lies in the recognition that with the same president still in the saddle, or at all events associated with the well-being of the firm, there is no chance of an inferior article being turned out, as is sometimes the case when the head of a firm passes away and the Company is purchased by strangers.

The present General Manager of the firm is H. M. MacMillan, nephew of

the founder, and in 1879 Mason & Risch were shown at the Toronto Exhibition for the first time in competition and were awarded a diploma and a Gold Medal. The firm has never looked back.

Growing testimonials have flowed through the intervening years into the office of the Company. Perhaps one of the most memorable being the following from Franz Liszt, unquestionably the greatest pianist who ever lived—who wrote:

"The Mason & Risch Piano you have favored me to excellent, magnificent, unequalled. Artists, judges of music and the public will be of the same opinion."

Victory followed victory in exhibitions, until the firm now possesses a list of medals and other awards that is a source of pride to the proprietors and of satisfaction to Canadians in general. Wherever the Company has opened a branch it has not been long before business has expanded. There is not a city or town in Canada of any size but where there are not Mason & Risch Store.

The firm will be under the management of Mr. K. M. MacMillan, who has been in the city a little over five years. He will be assisted by Mr. T. Morley, chief accountant and one of the oldest employees of Mason & Risch, Limited, in Western Canada.

Miss Olive Lester is in charge of the sheet music, Victor Records and Musical Merchandise Department. Her extensive knowledge of this branch of the business and musical ability are well known to all Edmontonians.

The firm prides itself on the fact that it can turn out a Piano to beautifully any home, their Art Department is a most comprehensive one, exquisite being made in any "period" design, in any finish, to match any room.

FIRM'S FIRST BRANCH

It is interesting to recall that the first Western store was opened by the firm in 1882 and a policy of square dealing inaugurated by the owners of the business has proved an satisfactory both to the manufacturers and the purchasers of Mason & Risch Pianos that today their ramifications extend throughout the Dominion.

A factory complete with modern appliances enables the firm to keep pace with the tremendous demand of its products. The firm has always

Veteran Business Man

T. G. MASON

Founder of the Mason & Risch Piano Company and its first President, who still retains that office, although now in his 84th year.

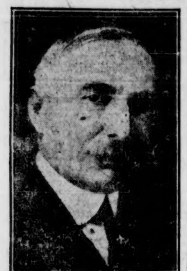

Superintendent of the Western Division of Canada from Port Arthur, Ont., to Vancouver, B.C. For over five years Mr. MacMillan has been with Mason & Risch as their Edmonton Manager, and is justly proud of the expansion of the business under his management.

ALLIES ASK THE TURKS TO HAND OVER REVOLVERS

Government Will Be Held Responsible Unless Delivered For Court Martial

Constantinople Sept. 13.—Allied authorities here have invited the Turkish government to surrender the men involved in the revolutionary plot, discovery of which was announced here yesterday. These persons must be turned over to the allies within a week, or the government will be held responsible. The conspirators will be tried by an allied court-martial.

General headquarters is under guard by the British troops, while Gordon Highlanders have raided premises of various Nationalist organizations. The ring of letters was anchored in the Golden Horn and the British have been directed against Istanbul, the Asiatic section of the city. British troops are proceeding to disarm the population.

R. M. MacMILLAN
General Manager of Edmonton store.

the founder, who expects to be present at Thursday's Opening. It is one of T. G. Mason's great regrets that his advanced age prevents him from travelling from his home in Toronto to be present at this interesting function.

FIRST CANADIAN PIANO
Before 1877 there was practically no manufacturer of piano in Canada, the real trade in these instruments being carried on by a few importers who handled American pianos exclusively. Then Messrs Mason & Risch conceived the idea that a Piano built by Canadians on conscientious and scientific lines would be sure to be accepted.

HENRY J. MASON
General Manager.

followed the principle that it will never make more Pianos than they can assure the public will be as good as the best that ever left the factory. Pianos are not the only product of this enterprising firm. It turns out Player Pianos and Phonographs possessing every known improvement and perfection, and the new store will be stocked with an artistic array of instruments that must appeal with compelling force to our large clientele. There will be high-class, high-price instruments, and there will be those that are medium priced, but all will be of the best workmanship, and the privilege of easy payments will be cheerfully extended to all desiring this boon, there should be but few homes in Edmonton without some kind of musical instrument manufactured by Mason & Risch.

Mr. Mason expected to arrive on Thursday afternoon to attend the opening of our new store at 10162 101st street, accompanied by Mr. G. D. Venini, Provincial Manager of the firm, and Mr. J. G. Whitacre.

Flames Endangering the Giant Steamship Leviathan in \$5,000,000 Hoboken Fire

Fire which destroyed two army stores at Hoboken, N.J., and did \$1,640,000 damage, threatened the giant steamship Leviathan, which lay tied up in an adjoining pier. Fireboats saved her by nudging in along one of the piers and cutting her with a water arrow. She attempted to tow her into midstream, but the tide was low, and she is almost only at high tide.

MASON & RISCH LIMITED

DARKNESS ENDS HURLING DUEL BETWEEN LANE AND SWANEY IN NINTH; NO DECISION REACHED

Third Game of the Post-Season Series to Decide Championship of Western Canada League Called at End of Ninth Inning with Score Two to Two—Game Was Played under Very Adverse Conditions

CALGARY, Sept. 11.—The third game of the post-season series to decide the championship of the Western Canada League was called at the end of the ninth inning tonight with the score a tie. It was a hurling duel between Lane of the Winnipeg Maroons and Swaney of the Calgary Brakes, with honours even, although Swaney chalked up ten strike-outs. Schemma's double drove O'Neill and Atreanu home in the first inning.

Griffith's triple and Anderson's error gave the Brakes their initial run in the third inning. Hamilton's double, Menzies' sacrifice and Viveros' fielder's choice gave the Brakes the tying run in the eighth.

Winnipeg... 200 000 000—2 2
Calgary... 001 000 010—2 3
Lane and Milligan; Swaney and Sullivan.
